MURDERED BY HIS WIFE

IN A DELIBERATE AND COLD BLOODED MANNER.

Scalded to Death in Salt Water -- A Big Defaulter-A Crew Swept Overboard.

Buyrato, N. Y., December 7.-A deliberate and cold blooded murder was committed in this city at an early hour this morning. At about 8 o'clock a boy rushed into the police stanon and stated that a man had been shot by his wife in rooms occupled by Emil Penseyres and his wife in the Miller block. Officers immediately proceeded to the place. They were met by a woman who appeared to be in a high state of excitement, She said her husband was in a bedroom. A cloth had been nailed over the window. In the bed lay the body of Emil Penseyres, a bullet had pen-etrated his heart. The shooting oc-curred at about 6 o'clock according to the best reports, and the man was evidently asleep in bed when the mur-

deress fired the fatal shot. There were no evidences of struggle. Every indication was that the woman deliberately shot the man in his sleep. The discovery of her deed seemed to drive her into a frenzy. The pistol she used had been thrown under the bed. She managed to regain possession of it and flourished it in the faces of the officers and screamed she never would be arrested. They felled her to the floor, and after a severe struggle succeeded in getting the revolver away from her. The only remark she made on the way to the station was that her husband "never used her right." He was some years her junior and a woodworker by trade She said she was formerly an occupant of a house of ill fame.

He Fell Into Boiling Salt Water, Privatore, Pa., December 7.—An intoxicated man named Burr Woods, who wandered into the salt works of Haller, Beck & Co., Alleghany City, this morning, tell into a vat of boiling salt water, and was scalded so badly that death is only a question of a few hours. The attention of the watchman was attracted by his shricks and, in looking around, he saw Woods climbing to the top of the vat. When he was pulled out the flesh dropped from his body in large pieces.

A Big Befaulter, Boston, Mass., December 7.—Vol-ney R. Chamberlain, one of the largest pork packers in the East, was arraigned in the Cambridge Superior Court yesterday afternoon charged with having concealed the assets of the insolvent firm of Lincoln, Chamberlain & Co., pork packers, of which the was a partner, and with the crime without material change until shortly taken by Congress for some time was of perjury in swearing falsely to certain purchases of government bonds. The complainants are John P. Squire & Co., with whom the defendant's firm had done business to the extent of nearly \$1,000,000, and who attached the estates and business of the defendants soms years ago, when the indebtedness of the latter aggregated \$500,000. A full hearing in the perjury case was

A Crew Swept Overboard.

ASBURY PARK, N. J., December 7.— The two masted schooner John T. Long, of New York, came ashore at 4 o'clock this morning, nearly opposite the life saving station No. 3, between Seabright and the Highlands of Navesink. The surf was running high, but the crew of the station succeeded in boarding the vessel. They found only a dog on board. It is supposed that though the feeling was decidedly the crew were swept overboard by the feverish. After the drop to 721 prices ject and go beyond mere formal heavy seas. MILWAUKER, December 7 .- In the case of Grotkau and Moessinger, the Milwankee Garden rioters, the jury came in about 11 o'clock and reported disagreement. The Judge sent them back for further deliperations and immediately afterward left for Wankesha. He will not return until evening, consequently nothing can be learned in regard to the jury's finding until that time. The general opinion is that there will be no verdict.

A Convict Shot While Assaulting a

PITTEBURG, PA., December George Wait, the convict shot by dep-uty warden McKenn, in Riverside penitentiary last morning, for assaulting one of the guards with a knife, died this morning from the effects of his injuries. There were about thirty convicts in the corrider at the time of the assault, but the best of order prevailed. A number of keepers with drawn revolvers were among them in a few moments, and a serious revolt have been useless, or impracticable, was prevented by quickly placing and because France did not require was prevented by quickly placing them in their cells.

The Unauthorized Patti Agent Un-der Surveillance.

Naw York, December 7.-The en-\$30,000 worth of unauthorized tickets for the Patti concert in the City of Mexico has been captured, it is be-lieved, by Mexican detectives. From dispatches received at Henry E. Abbey's office in this city yesterday it is supposed that the swindler has been found within thirty miles of the City of Mexico. The man is supposed to be one Charles Bourton, an alleged Parisian journalist, who lived at No. 58 Clinton place, in this city, for a few weeks last fall. The information con-tained in the dispatches was very meager, and it was not known posi-tively by Mr. Abbsy's representative in this city yesterday that Bourton, or who ever he is, had actually been arrested. It was known to a certainty, however, that the man was under police surveillance, and would not be allowed to leave the country. It is thought that there is a very good chance of recovering the money.

The Peculiar Case of a Sixteen Year Old Murderer.

Sr. Louis, Mo., Dec. 7 .- A special from Jefferson City, Mo., says: Declaions by the Supreme Court were handed down today. That of principal interest was one by Judge Black in the case of the State vs James S. Payton. This case comes from Christian county and the following is its history: On the 12th day of April, 1885, Payton and his brother William attempted to assausinate L. T. Matthews, who was moving his family. Both fired at him with rifles. Mat-thews was slightly wounded and an infant child of his, which was in the arms of his wife's eister, was shot through the head and instautly killed. Both of the Payton boys were arrested. Upon trial Jss. 8 Payton was con-victed of murder in the first degree.

This occurred once be-fore, and it is likely that the Governor will not allow it to occur again.

The execution will take place Friday, unless an application for a respite is made, which will be considered by the Governor.

The Court of Calms.

WASHINGTON, December 7.—The Court of Claims last May decided favorably to the claimants the gen-eral principles applicable to the French spoliation claims. Since then the government has moved for a re hearing, and argument on this motion been going on for some two weeks. Yasterday the court decided the motion against the government. Judge John Davis delivered the opinion. The general principles decided in May are reaffirmed, and the court considers in detail other points. holding that a vessel could not be condemned on the single legally ground that her crew did not con-form to French laws, but the decisions of prize courts are not binding on political departments of foreign government; that an appeal to the court of last resort in France was not necessary to the validity of the spoliation claims, because such an appeal would it as a condition precedent to a recovery for indemnity. The opinion discusses the law of nations as applied to neutral lights, and holds generally while reserving particular cases for discussion upon their individual merits, that the conduct of France towards American commerce prior to

SECRETARY MANNING'S

REPORT COMMENTED UPON BY THE PRESS

Of New York-The Difference of Opinion Among the Leading Journals.

New York, December 7 .- The folwing are comments on Secretary

Manning's report: THE "HERALD" BAYS it is a remarkably clear and cogent discussion of the financial situation.

THE "TIMES" SAYS: We fear that Mr. Manning is throwing pearls before swine. There is nothing in the conduct of the present majority in Congress to justify the opinion that one-half will ever read his elaborate and very able report, most of which is of the soundest, or that one-half of those who read it would understand it, or one-half of those who understand it would approve it. We cannot too much admire the zeal and courage with which the Secretary takes up again, after a year of great physical suffering, the firm and even fervid advocacy of prin-ciples that have attracted no support and hardly attention from his party in Congress. Mr. Manning is a gifted politician. As we read his emphatic and often brilliant statement of ideas, as important as any Secretary kince Mr. Chase has had to present, we can not help wondering what would have been the effect if Mr. Cleveland had held a different view of the use of patronage, and if a vote for suspension of silver coinage, payment of the legal tenders and free wool had been made a condition precedent to the distribution of offices in each Congressional district. It is better as it is, but the suggestion throws a strong light on the

capacity of the Democratic mejority to accept the advice without being bribed to do so. The boldest and the wisest thing in Mr. Manning's report is the recom-mendation to use the surplus to pay the legal tenders."

A WASHINGTON SPECIAL TO THE "WORLD"

Mr. Manning's proposition for retir-ing the greenbacks and supplying their place with silver and gold certificates is not popular and will not be aproved. I nave talked with a number of Congressment upon the subjects of varying shades of belief and they are all against it. Mr. Bland, of Missouri, who represents the extreme wing of at the Exchange, and the dumping of the ellver men, will oppose the retiral lot of certificates on the market. ing of the greenbacks. Mr. Scott, of Erie, who is at the head of a class of financial men, the exact opposite of Mr. Bland, said that he was opposed the authorization last year of the issuterrific one saught on the market and volues dropped in a very few minutes to 71½, eight cents and a half below the opening. A scene of the wildest excitement ensued. The holders of simply hatten our getting on to simply fiasten our getting on to a silver basis and the elimina-tion of gold as a standard from the country. Mr. Manning's principal suggestion, however, relating to the tariff reduction, fits in very well with the Hewitt administration bill. Mr. Manning's proposition to take the tariff of raw materials and to have free wool would suit Mr. Hawitt very well. The latter believes in free wool, although that is not in his bill. In the main Mr. Manning's suggestions concerning the tariff will meet with the approval of the majority in the

> phrases. In regard to the report of Secretary Manning,

THE "TRIBUNE" SAYS: "Jacob's voice, Esan's hand." It is called Secretary Manning's report, but it is not a report and the reater part of it does not appear to be Secre-tary Manning's. It is not a report, but an editorial argument or speech on the silver question and the tariff. The bulk of the argument is not in harmony with the most important specific recommendation of the Sicre retary, nor with the conduct of the Treasury Department for the past four months. Ever since Mr. Marble effered to "ring five bell in night," his peculiarities of style have been recognized by many of his fellow-citi zers, who will have no hacitation in giving him credit for the graces of expression in this argument. The opin-ions are those which Mr. Marble has constantly advocated; they are not those which have recently determined the action of the department."
